Didn't I Walk On The Water

Jeremiah Yocom

Key = D

Tempo 72

Verse 1 :

```
     D                              Em
As I kneel in the darkness in the middle of the night
    A                          G                  D
I'm praying for assurance everything's gonna be alright
A      D                  Em
Lord I see another battle out in front of me
      A                              G            D    Asus4
I'm afraid I won't be able and I'll go down in defeat
```

Chorus :

```
                D                          Em
And He said, I walked on the water and I calmed the raging sea
  A                     G                      D
I spoke to the wind, it hushed and I gave you peace
A        D                            Em
Didn't I run to your rescue didn't I hear you when you called
  A                             G               D
I walked right beside you just so you wouldn't fall
A        D                            Em
Didn't I leave all of Heaven just to die for your sin
  A                                   G          D    (Asus4)
I searched until I found you and I'd do it all again
```

Verse 2 :

```
         D                Em
He said, do you remember where I brought you from
     A                       G                  D
Just take a look behind you at how far you've come
A   D                               Em
And everytime you asked me, didn't I deliver you
   A                                  G                 D       Asus4
So why would you be thinking that I wouldn't see you through
```

Verse 3 :

```
          D                           Em
Now she's talking to her father in a house that was once a home
            A                                   G                 D
She said my bills are coming due Lord and six days is not that long
    A       D
She hears a voice so still and low
             Em
It says I've moved like that before
         A                               G                 D    Asus4
And I'll do this little thing and I'll give you so much more
```
